About Ecolon Coating

Ecolon™ coating

Ecolon™ by Neoflam is a professional grade nonstick ceramic coating that uses the earth's natural substances. Dedicated to consumer & environmental health, Neoflam created Ecolon™ using natural, sustainable minerals.

Superior Durability

Ecolon™ coating is applied to the interior and exterior of the cookware, making it extremely scratch-resistant.

Safe

Ecolon™ coating is free of harmful chemicals such as PFOA/PTFE.

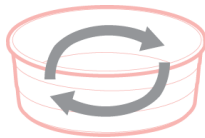

Easy to clean

This powerful nonstick coating requires less for cooking and makes cleaning a breeze.

Cast Aluminum Cookware

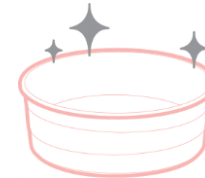

Convection Effect

The cast aluminum body & lid work together to create convection by producing currents of hot air for more efficient cooking.

Lightweight

Cast aluminum cookware is 1/3 the weight of cast iron.

Various Designs

A variety of stunning shapes, designs and features are available.

Rectangle

Rectangular pan with high sides for roasting & baking. Can be taken from oven & used as beautiful serving piece. Extra-wide, seamlessly-integrated handles for a confident grasp.

OPTIONAL Silicone Grip
