## What's the Ecolon Coating?

Ecolon Coating is a professional-grade ceramic coating with a superior nonstick function. Our ceramic coating is enhanced with natural minerals that strengthen the coating while maintaining a healthy cooking surface.

## Clean & Non-stick, Ecolon Coating

Easy to clean  
Upgraded nonstick performance

## Superior Durability, Ecolon Coating

Resistant to scratch, abrasion and chemical reaction

## Safety, Ecolon Coating

Ecolon coating is manufactured with all natural mineral ingredients, Ecolon coating is with no PFOA/PTFE.

Retro

### Thicker Wall and Base

Thickness allows food not easily burn and keep the heat longer.

### Soft Grip Handle

Silicone coated handle is effective for non-slip and soft grip.

### Integrated Steam Vent Hole

Hidden steam hole beneath pebble shape knob prevents overflow & streamlines appearance.

### Retains Flavor and Nutrition

Ecolon coating reflects heat and infrared rays to ensure that flavor and nutrition is not lost during cooking. Also cast aluminum lid creates convection effect.

### Light Weight

Cast aluminum cookware is 1/3 the weight of cast iron

### Leaf Pattern Base

The Leaf pattern on the bottom adds unique appeal.
